• Speaking • Listening • Reading • Writing • Phonetics • Soft skills

ESL lab:

- ESL lab is for ESL English i.e., for those whose mother tongue is other than English. The most essential component ESL English learning is ESL listening. So, ESL lab listening is given high importance. It deals with various English courses, English listening audio and English language studies.
- Our ESL language lab incorporates interactive methods and immersion software tools, and crucial component of language learning systems today

Communication Skills Lab:

- Many times it is also referred as English communication skills lab, English language communication skills lab. An English communication skills lab/ English language communication skills lab/ Communication skills lab develops among the students a habit of listening and speaking with accurate pronunciation. It includes English courses, English listening audio, English language studies and also English comprehension.
- This communication skills lab is designed to develop fluency and confidence through actual practice, so it is an extremely effective solution for students who need to improve English communication in everyday life.

Advanced Communication Skills Lab:

- If communication skills lab has some extra facilities like English language video i.e., English language learning videos, English language book etc. it can be considered as Advanced Communication skills lab. The students can use these facilities like English language video, English language books to improve English language levels.
- The upper-level English communication skills lab typically pairs multimedia content with a computer-based language learning system, allowing students to work with materials flexibly and at their own pace.

Phonetics Lab:

- The existence of Phonetics lab had been since 1988. It teaches pronunciation, tongue and lip movement for words which can impact the speaking skills. With the advancement of digital language learning system, English language learning videos came into existence and made learning phonetics even easier.
- Modern phonetics labs are now part of an integrated English Language Laboratory that combines traditional teaching and up-to-date computer-based facilities for improved learning outcomes.

Multimedia English Language Lab:

- Each student is given an individual console with a dedicated headset, they have one of the main advantages of practicing on their own with complete privacy in Multimedia English language lab. So they can do their pronunciation, listening, reading, writing & speaking comfortably and most importantly at their own learning pace. It is a part of digital language learning system. Digital language lab manufacturer improved teaching environment in the computer labs.
- The multimedia Digital language laboratory is a classic example of how a virtual language learning system redefines traditional English language acquisition, with learners enjoying personalized and efficient communication skills training.

WIRELESS LANGUAGE LAB:

- The latest innovation made in classroom English language lab activities/ English lab activities are the founding of Wireless language lab. It makes the classes more vivid and open, the classed won't be restricted by the time and place.
